## BEAUTIFUL ARE SCENES IN HAROLD WRIGHT'S STORY

"The Eyes of the World" Shown Here Today Is Indeed a Great Feature.

Departing from the merely spectacular and concentrating its essence into a powerful love story, gorgeous California scenic settings and elaborate musical attributes, "The Eyes of the World," at the Washington and Gem Theater this afternoon and tonight offers, something different in pictorial drama from the run of great film offerings put forward of late. Represented in this achievement are Harold Bell Wright, author of the famous story, which has had a sale of over two millions copies in book form, and W. H. Clune, who was associated in the production of "The Clansman" ("The Birth of a Nation") and other large film ventures.

The noted author amplified the story for this production and personally assisted in the work of putting his characters on the screen. While "The Eyes of the World" is primarily a romance, it is melodramatic in the best sense, bristling with adventure, hazard and dramatic clash, as well as idyllic charm. The cinema version is in nine acts, was seven months in making at unlimited cost on the actual scenes of the story in southern California.

The qualities that gave the book such phenomenal sale are intensified in the pictorial version, which has a wealth of gorgeous photographic settings. The presentation is a lavish one in every way, in numerous cities it has broken all theater records. An elaborate musical setting is one of the features of the production.

I have for sale: 1 Miller Gem Steel range, for coal or gas; 1 sideboard; 1 dining table; 2 beds; feather pillows; 1 book case; 2 dressers; 1 rug 12 1/2 by 13 1/2 feet; 5 lamps; 2 clocks; 1 coal vase; 2 taburets; 1 gas iron; 2 clothes racks; 1 clothes basket; 1 chamber set; 1 pull arm boots; 1 hall tree; picture frames; 1 coal heater; 2 gas heaters; other small articles. ## LODGE TO SOUND KEYNOTE AT G. O. P. NATIONAL MEETING

Haveridge May Be Permanent Chairman—Lexington Man Is Chosen An Assistant To The Temporary Secretary.

Chicago, May 12. — Having chosen Senator Henry Cabot Lodge as temporary chairman of the Republican National Convention opening here June 8, and the other temporary officials of the convention, the Republican National Committee had only minor matters before it on the second day of its session.

Several matters of the committee indicated they favored the selection of former Senator Albert J. Beveridge, of Indiana, as chairman. The committee agreed on the choice of Senator Lodge with the recommendation to the national convention that some one else be chosen permanent chairman.

Hearing of contents among state delegations was postponed one week to May 31, by a decision of the national executive committee upon the recommendation of Chairman Will H. Hays.

Party leaders said the League of Nations fight undoubtedly will be touched on by Senator Lodge and that a plank endorsing the peace treaty and the league covenant with the reservations voted by the Republican majority in Congress would be inserted in the platform.

Lafayette B. Gleason, of New York, secretary of the last two Republican conventions, was again chosen temporary secretary. Six assistants, three men and three women, also were named. They are Mrs. Guy Garnett, of Maine; Miss Jennette A. Hyde, of Utah; Mrs. Chloe Adair Morgan, of Kansas; Richard J. Beamish, of Pennsylvania; Harry Giovannoli, of Kentucky, and Fred Wilson, of Missouri.

Edward P. Tinker, of Indiana, sergeant-at-arms of the national committee, was appointed temporary sergeant-at-arms of the convention with tiny Howard, Minneapolis, and McMillan Hatfield, of West Virginia, as assistants.

Major General James A. Ryan, of Chicago, was named chief doorkeeper. His assistants will all be former service men. General Ryan was General Pershing's chief-of-staff on the Mexican expedition and later commanded two officers' training camps at Fort Sheridan.

The committee selected George L. Hurt, of Virginia, as official reporter, and Dr. John Dill Robertson, of Chicago, as chief of the medical staff.

The authors will be former service men under the direction of Captain Knowlton Ames.

Addison G. Proctor, of St. Joseph, Mich., the only surviving delegate to the Republican national convention at Chicago in 1860, which nominated Abraham Lincoln, was invited to attend the convention as a guest of honor.

The national executive committee also met here Monday in its regular monthly session. It was decided to postpone hearing of contests for convention seats to May 31, at 9 a. m. Chairman Hays reported that the "situation showed much improvement," and that the original plan to open the hearing on May 25 was no longer necessary.

## ALUMNI ASSOCIATION HOLDS FIRST MEETING.

The annual election of officers of the Alumni Association was held last night at the first meeting of the season in the High School building. Those elected were:

President—Frank Browning.  
Vice President—Wm. Gelsel.  
Secretary—Norma Flowers.  
Treasurer—Marion Daly.

Due to the present high cost of food stuffs the annual banquet was not decided upon but a committee appointed to call upon the Senior class for their opinion, since they are in the majority in the attendance of the banquet. If held, the banquet precedes the dance on the night of Friday, June 11.

All committees will report on the next meeting night, next Tuesday, at 7:30 o'clock and which meeting all Senators are expected to attend.

## "WHATEVER IT COST IT PROVED WORTH IT."

Speaking of "The Lost City" which is to be shown at the Gem Theater May 20 and 21, and its "lock out" opening in the Boulevard Theater, Cincinnati, the Cincinnati Commercial-Tribune of Monday, March 22, had this to say:

"That there is an appeal in everyone, young and old, in the beasts of the jungle, was proved in the opening yesterday of the Boulevard Theater. The management offered as the opening bill in this new first run picture house Bally's superaerial production 'The Lost City,' in which 800 varieties of wild life are shown.

"The Lost City" is known in the film world as the most costly production of its kind ever offered; its reception in the Boulevard yesterday proved it to be worth whatever it cost."

## WHEAT CROP WAY BELOW LAST YEAR'S

Crop Report Shows That Fourteen Per Cent. of What Was Sown Was Abandoned.

The condition of Kentucky's wheat crop indicates a probable production of about 6,143,000 bushels this season compared to 12,029,000 last year, according to the May crop report issued jointly at Frankfort and Louisville by State Commissioner of Agriculture W. C. Hanna and H. F. Bryant, Kentucky field agent of the United States Bureau of Crop Estimates. Probable 1920 production is estimated at 6,240,000 bushels compared to 744,000 bushels last year, and time hay a 1,410,000 tons compared to 1,561,000 tons produced last year. Actual production this season may prove greater or less than these estimates, depending on whether conditions are particularly favorable or unfavorable between now and thrashing time and hay harvest.

Heavy reduction of wheat acreage in Kentucky last fall, late sowing, poor condition this spring and abandonment of fourteen per cent. of even the re-sown acreage that was sown, are the chief conditions warranting such a low estimate of the wheat crop. It came through the winter a little better than wheat, but still much below average. Wheat acreage left for harvest is now estimated at 1,046,000 acres compared to 1,046,000 last year; condition this month is 71 per cent. of normal compared to 103 per cent. this time last year.

Wheat condition is estimated at 82 per cent. of normal, compared to 100 per cent. this time last year. The late spring has delayed farm work severely, plowing being only 60 per cent. completed compared to 75 per cent. usually done by May 1. Spring planting is forty per cent. done compared to an average of 45 per cent. usually done by this time. Pasture is 80 per cent. of normal compared to the ten year average of 85 per cent. Ten per cent. of last year's hay crop in Kentucky (or 156,100 tons) is still on the farms.

Livestock losses during the winter have not been unusually heavy, except in some localities, though the spring condition of stock is slightly below average, excepting hogs, which are about average. Losses from each 1,000 head during the winter and spring were: Horses and mules 22; cattle, 40; sheep, 60; lambs, 65; swine 45. The ten-year average losses are: horses and mules 20; cattle 34; sheep 53; swine 65.

## OIL, JOY!

Growers in the sections where the insecticide strawberry is raised are saying that there will be a LARGE crop of berries this season should the recent rains be followed by a spell of good warm weather. Home-grown berries are due here in about two weeks.

## SHARP RISE IN THE RIVER.

Due to the heavy rains of yesterday and last night the river is rising at this point, and will probably cover a large portion of the lowlands around here, but will not go above the thirty-foot mark, it is thought.

Miss Sallie Glascock, of Flemingsburg, who is a music teacher in the college at Blackstone, Va., lost all her private belongings when the girls' college there was destroyed by fire recently.

## Studebaker

WAGONS, BUGGIES, HARNESS

A STUDEBAKER THAT HAS SAVED MONEY FOR ITS OWNER  
I bought my Studebaker from your agent, D. M. Smith, of Flint, Mich., in 1916, and have used it continuously on my farm.  
I have a farm of 140 acres, with good buildings, and this wagon has hauled all the material.  
Two years ago my son put on three tons of sugar beets and hauled them frozen ground to the scales.  
Last summer we hauled a load of hay and drew our hay to the barn.  
The wagon had not been shattered half the time for the last twenty years yet has never broken a wheel or an axle.  
John H. Wood, Flushing, Mich.

Not a broken wheel or axle —in use 37 years —still good for haying

Think what it means to get 37 years and more work out of a wagon.

Cuts down the cost—doesn't it?

The Studebaker wagon will stand any reasonable strain. We know what Studebaker wagons that we have sold have done.

Come in and let us tell you what our experience has been with the Studebaker people, our experience with Studebaker wagons and the experience of those to whom we have sold Studebaker wagons.

## "IN THE DAY'S NEWS."

Foremost among the participants in the Methodist General Conference at Den Moines has been Bishop Joseph F. Berry, who today enters upon his sixty-fifth year and who within a few days will complete sixteen years of service in the bishopric. A Canadian by birth, the son of a Methodist minister, he joined his father's church at the age of 11, as the result of a revival. Two years later he began to preach and for several years thereafter enjoyed a reputation throughout Michigan as "the boy preacher." As a lad he had learned something of the printer's trade, and as a pastor he wrote successfully for the press. His journalistic instinct led him into the Methodist journalism, and from 1890 until his election as a bishop in 1904 he edited the young people's weekly of the Methodist denomination.

### ANNOUNCEMENT.

Covington, Kentucky, May 10th, 1920.  
For some time past it has been known to many of my Republican friends throughout the state that I would be a candidate for the Republican nomination for United States Senator.

I now desire to make public announcement of that fact.

I keenly appreciate the responsibility and importance of this high position, and, in the event of my election, I will give to the duties of this office the best there is in me and will represent the people of Kentucky and of the United States to the best of my ability.

I desire, also, to take advantage of this opportunity to express my sincere thanks to the many Republicans throughout the state who have, without solicitation on my part, so kindly and generously offered me their support.

### YOU

Need a Bank and a Bank needs you. We think ours is the Bank you need and we are sure you are the customer we desire. There are so many helpful ways that we can serve you and you will always find us anxious to do so. But you will never know how numerous our ways of assisting you are until you open an account with us and give us a chance. Your need for a Bank is not based on the amount of money you have. The person with a small amount of money needs a Bank as badly, if not worse, than a person with a large amount. No matter how small your account may be, we would be glad to have it and assure you of a hearty welcome and our full assistance. Come right in and tell our officers of your needs and be assured of helpful and considerate treatment.

If you have any surplus money, we will pay you interest on it or assist you in making any kind of an investment you may desire.

### "SCREEN OPINION" SAYS

To YOU "RUN IT."

If thrills are the makings of a serial—and there isn't any question they are—then you should see this one. And above all you should run it. It's an animal picture—and they are regular real live animals, too. The locale of a great portion of the story is the jungle and the story presented is just a little bit different from the average run of serials. It is interesting even to adults. Juanita Hansen handles the role in a sincere manner and certainly proves something of a dare-devil. George Chesebro and Hector Dion have the leading male roles and are splendid opposites, Chesebro handling the hero role to advantage and Dion playing villain to a finesse.

The picture which the above article refers to will be shown at the Gem Theater May 20 and 21.

### FIDDLER IN COURT:

PROVES OWNERSHIP.

New York. — Harry Moskowitz, a musician playing in the Hotel Commodore grill room, attempted to prove his ownership of a violin he alleged had been stolen by playing several numbers on it in Yorkville court. Moskowitz said the instrument disappeared several days ago and through a friend he found it in the music store of Julius Kessler, 220 East Eighty-sixth street. Kessler told him it had been brought there by William Miller, a waiter at the Commodore, and detectives were called. Miller was arrested when he came to the store to get his money.

The impromptu concert was arranged by William O'Shaughnessy, deputy assistant district attorney, who asked the musician how he could identify the instrument.

"By the touch and sound," Moskowitz replied. He seized the bow and was allowed to play several times before the court interrupted. Miller was held in \$1,500 for the grand jury.

## Swift & Company Does Not Control Its Raw Material

Other industries can buy their raw materials according to need or judgment, and set a selling price. They need manufacture only what they can sell at their price.

Cotton, wool, wheat, lumber, iron, steel, and other non-perishables, can be held either by their producers or their users until needed.

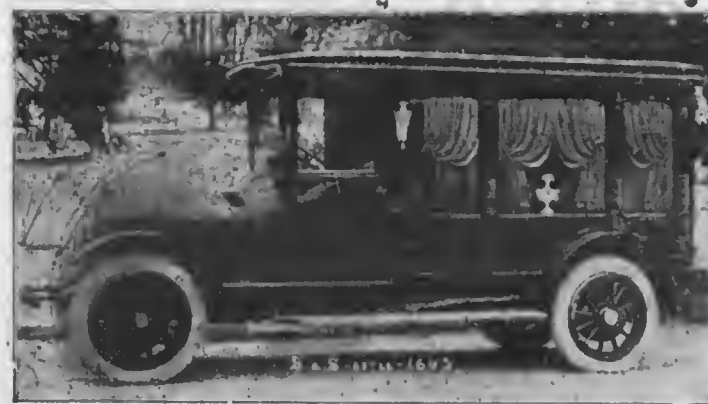

But live stock comes to market every day in fluctuating quantities from scattered sources, wholly uncontrolled and at times without regard to market needs.

An immediate outlet must be found for the perishable products, at whatever price, as only a very small proportion can be stored.

No one can foresee or stipulate what they shall bring; prices must fluctuate from day to day to insure keeping the market clear.

Only the most exacting care of every detail of distribution enables Swift & Company to make the small profit from all sources of a fraction of a cent per pound, necessary for it to continue to obtain capital and maintain operations.

MRS. JOHN D. WYATT  
DIES IN LOUISVILLE.

A telegram to Harry L. Walsh here this morning announced the death in Louisville yesterday of Mrs. John D. Wyatt, widow of Judge John D. Wyatt. Mrs. Wyatt was a resident of this city up to a few months ago, when she left here and went to Louisville, where she died. She is survived by six small children. ## BLOOD KILLS DISEASE GERMS

Pure, Healthy Blood Destroys Germs,  
Removes the Waste Tissues and  
Rebuilds Bone and Muscle

If Your Blood Is Weak, Don't Delay  
Take Gude's Pepto-Mangan, the  
Red Blood Builder.

In your body are two gallons (more or less) of blood, which is constantly at work keeping your system free of germs, removing the waste tissues, and building up new strength in bone and muscle.

This blood must be healthy or your resistance to disease and fatigue will be lowered, you will lose weight, and both body and mind will have less vigor.

For building up blood weakened by overwork, illness or other causes, Gude's Pepto-Mangan, for years prescribed by physicians, is now generally known as a prompt and harmless tonic. Gude's Pepto-Mangan soon produces marked beneficial results. The tired, worn-out, run-down feeling disappears. And in its stead a vigorous wholesomeness and happiness proves that the blood has been supplied with the sorely needed richness to supply the entire system with renewed strength.

When you buy Pepto-Mangan at your drugstore, be sure the name "Gude's" is on the package. You can get it in either liquid or tablet form. The name "Gude's" is not on the package it is not Pepto-Mangan.—Adv.

With the installation of the new officers, elected Tuesday, and the selection of Dowling Green as the place for the meeting next week, the Kentucky Great Council of the Improved Order of Red Men closed a two days' session at Lexington Wednesday.

More than 100 members took the Great Council Degree during the meeting. In addition to the installation of the new officers talks by members of the tribes represented at the Great Council were given Wednesday on the growth and prosperity of the order. Amendments to the by-laws also were discussed at this time. One of the more important amendments provides for an increase of \$400 a year in the salary of the Great Keeper of Records.

#### FILES SUIT FOR DIVORCE.

Through her attorney, Frank P. O'Donnell, Mollie Shoemaker has filed suit for divorce from her husband William H. Shoemaker to whom she was married on October 6th, 1919, and to which union there are no children. She accuses him of cruel and inhuman treatment for a period of not less than six months and asks for absolute divorce with restoration of her maiden name, Mollie Wolf, reasonable attorney fee, for costs expended and for all general, special and proper relief.
